

Please keep this information in mind when creating your design:

- The basic design of the game clothing may have a maximum of four different colors
- Both sleeves must be identical in color and design
- The colors of sponsor logo on the chest may be adjusted if necessary, depending on the choice of the background color (contrasting); the logo cannot be changed
- Logos of the sleeve sponsor and league will be placed above the PUMA logo on both sleeves
- The back of the jersey (including the print) and the rest of the game day outfit (shorts and socks) can not be designed. Due to regulatory reasons they will be added by PUMA/BVB based on the front design.

Due to technical production or regulatory guidelines, it may be that we eventually have to modify your design slightly. In that case we will get in touch with you in advance to put the finishing touches together.
